## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1, 3-20, and 22-27 are allowed in view of the Applicant's arguments (Responses filed 9/8/2005 and 2/21/2006), and the Board of Patent Appeals and Interferences Decision (filed 9/19/2006) and the cited prior art of record. The independent claims recite coupling a message notification application to a server that stores messages for a user, registering the message notification application to an instant messaging service, accessing the instant messaging service by the user, signing the user onto the message notification application by adding the user to a buddy list of the message notification application to associate the user to the instant messaging service, and sending an instant message notification from the message notification application via the instant messaging service to the user when a message arrives on the server for the user, which, in addition to the rest of the claim limitations, are distinguished from the prior art. For support, see Instant Specification (Fig. 1, pg. 3, lines 24 to pg. 4, line 3, pg. 4, lines 9-30, pg. 5, lines 4-5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
